Computer Forensic Services

Effective 1/1/2018

AIT provides extensive computer forensic services. These services include forensic investigation, forensic imaging and data recovery, evidence extraction, and forensic consulting. We have been qualified by both state and federal courts to provide expert testimony. For our clients with active cases we also provide forensic workstations for walk-in and remote use.

Service	Description	Rate
Forensic Consulting	Case evaluation, document preparation and general consultation. Extraction and analysis of computer and communications systems data.	\$350.00/hr
Forensic Testimony	In court expert testimony, depositions, and sworn statements.	\$425.00/hr
Forensic Imaging	Prepare forensic image of computer hard drive using a certified forensic bridge. Generate MD5 and SHA1 verification keys. Create searchable index of all data (deleted and undeleted) on the drive.	\$475.00
Forensic Image	Certified copy of a computer forensic image provided on a portable hard drive. The cost of the hard drive and ground shipping is included.	\$300.00
